MASONIC SIGN SAVED SOLDIER Rev. Livingston Brings In Clipping Describing Scene He Witnessed.

Rev. J. G. Livingston gave the I. J. a clipping from the Masonic Home Journal, of recent issue, in which a veteran of the Civil War, and a member of the Masonic fraternity tells how a Masonic sign brought protection to Confederate soldier about to be taken prisoner. The incident which the writer mentions, happened at Rev. Livingston's old home in the eastern part of this county, and he states that he remembers it well, having witnessed the incident himself when a youth. The Miss Livingston mentioned in the letter was his sister. The incident which is of unusual interest, is described by the writer as follows:

I notice in the Home Journal of December 1, 1914, under sub-head, "Mystic Sign All That Saved Him," a story describing how a Belgian saved himself and a number of his countrymen from execution by showing a Masonic sign to the German officer in charge of the firing party, etc., which recalls to my mind an incident which occurred during our Civil war, and in which incident the writer was a participant. At the time of the incident I was first sergeant of Company A in the Seventh Regiment, Kentucky Infantry Volunteers (Federal), but was on detached service during the latter part of August and the month of September, 1862—was bearer of dispatches, first between Cumberland Gap and Lexington, Ky., and then between Cumberland Gap and Louisville. At the latter place I rejoined a detachment of my regiment about the first of October, 1862, soon after which we received marching orders and started for Perryville, Ky., near where we met, engaged, and after a fearful engagement defeated Gen. Braxton Bragg's Confederate forces on the 8th of October, 1862.

The next day, following in his wake, as he leisurely retired from Kentucky, late in the afternoon, the captain of my company and I asked of the Colonel commanding the privilege of leaving our command for a few hours in order to visit and take supper with an old friend and his wife, who were formerly from our county (Owsley). Our Colonel informed us we could have his consent but were likely to be picked up by some of the Confederate cavalry, as doubtless some of them were prowling along our flanks for that purpose of picking up stragglers from our ranks. Our friends lived about one and a half miles from where we left the command, and about one mile from the nearest point to the road leading to Crab Orchard, where we were heading. When about half a mile on our way, we met a colored boy, carrying a load of woodland with an ox team and a load of wood. We asked him if there was any Confederate soldiers in the neighborhood. "No, sah," he said "but dars some rebels' calvary mans over here at Miss Livingston's." The conversation at once became very interesting then. Rapid fire questions were put one after another until the "calvary mans" were probably located—their horses in the barn, their carbines and war equipment in there also, and the men probably at supper. Just then our old friend, Mr. Boone, rode up on his way to Mrs. Livingston's, just over the hill. Some of the same quick-firing questions were put to him, and we found the location of the barn, house, etc., as given by the darkey to be correct; and then the time for action was "right now," to either make an orderly retreat or to charge down and capture the two unarmed Confederate "calvary mans." Of course we could afford to be brave, knowing that we would be between them and the barn where their arms were stored. But to the point.

We dashed down in front of the house at near full speed of our horses, sprang from our saddles without checking up, letting them go at will, and, as agreed, I entered by the front door, while my (then) captain was to go around to the rear and cut off retreat of the men. As I ran up the front door of the house a young lady (I supposed it was Miss Livingston) sprang into the doorway, threw up her hands on either side, as though to prevent my entrance, and as I ducked and crowded through beside her, I saw two men making very quick time in their exit through the rear door. Without waiting to apologize for my abruptness, I was quickly outside again in the rear. As soon as I was outside the house I commanded the men to halt. I had a repeating Henry rifle in my hand, and at the first command one of the men stood, but did not turn entirely around, facing me; the other turned his head, looking back, then started on again. I then ordered him the second time to halt, and brought the gun to my shoulder, when the one who first stood gave me the sign which every Master Mason understands, and he was at once under my protection. He gave his name as James S. or J. J. Stratton, and, if I forgot not, said he had been sheriff or a deputy sheriff in Louisville. The other Confederate's name was Felix Moses, a Frenchman, and he was from Boone county, Ky. He could speak but little English.

I write this extended article, hoping that if Bro. Stratton is still living, I may, through your valued Journal, be enabled to hear from him, and, if possible, to meet with him, or at least to communicate my best wishes to him. If he has passed to the great beyond, I would be very glad to hear from any of his relatives. The above was the first and only time that I ever seen the sign given outside of a Masonic lodge room. Fraternally, THOS J. DANIEL, Late Lieutenant Colonel, Seventh Kentucky Volunteer Infantry, Member of Bullitt Lodge No. 155, F. & A. M., Shepherdsville, Ky. Address Bardstown Junction, Ky.

Marshal Charles Winfrey took two more bootleggers into custody Wednesday when they arrested Greenie Henson, a well known Stanford negro, and Ben Penman, a Hubble negro. "Blackhand" Work at Richmond.

A dispatch from Richmond says that Geo. Douman, the restaurant proprietor who received a black-hand letter to place \$500 in a certain place there by midnight Wednesday night or die, put the money there but did not come for it. The place was watched by government officials. Considerable excitement prevails at Richmond over the affair as it is the only letter of its nature ever received there. It came through the mail.

NICE JOB IF BOSWORTH WINS

R. L. Slade, Popular Drummer, Says
He is Promised \$2,500 Place.

Robert L. Slade, of Lexington, one of the best known "drummers" in Kentucky, who was in Stanford Wednesday morning is one of the hardest workers in the state for the nomination and election of Auditor Henry M. Bosworth for governor. Mr. Slade says that Bosworth has promised him an appointment as a member of the State Board of Control for Charitable Institutions in the event he wins for governor and not only made the offer of this nice appointment to Slade personally but also to two of his traveling friends who went to Bosworth. This place pays \$2,500 a year, and the Board of Control consists of four members, two democrats and two republicans. Mr. Slade has long been an active, working democrat. He says that he has "lined up" about 100 "drummers" already who are boosting Bosworth all over the state as they go about their travels. They will do his candidate an immense amount of good before the primary is held.

Work is warming up a few of the late unemployed, and the women are still on the job of cutting wood for heating and cooking stoves.

Two claybank horses met on Main street lately, the first instance in a lifetime, and just what it portends is still disturbing sleep of some.

LATEST WAR NEWS

Probably Oldest Man in County Dies, Aged 97 Years.

British forces in France advanced three-quarters of a mile Wednesday capturing all the intervening positions of the enemy, according to an official announcement given out in London today. The text of the announcement follows: "The Fourth and the Indian Corps advanced yesterday on a front of 4,000 yards for roughly three-quarters of a mile, and captured all the intervening hostile positions and trenches. The corps on the right and left of these two corps also were engaged. More than 700 prisoners were taken. British aircraft were active and succeeded in destroying the railroad junctions at Courtauld and Menin."

The German cruiser Prinz Eitel Friedrich on arriving at Newport News announced that during her six months' scouring of the seas as a commerce raider she had sent to the bottom the William P. Frye. American owned and flying the United States flag, having on board a cargo of wheat consigned by the commander as contraband. Washington officials were profoundly stirred by the news of the blowing up of the steamer, and every effort is promised by the State Department to get at the bottom of the matter, which is considered an unfriendly act, and diplomatic negotiations with Germany will in all probability soon follow, it is stated.

The French War Office announced that the Fourth Italian Regiment of the Foreign Legion, to which Garibaldini belongs, had been given its liberty by the French government, been violently bombed with forty-two-centimeter guns. German losses were very heavy near La Bassee, where the French captured 1,000 prisoners.

During the bombardment in the Dardanelles thirty Turkish guns mounted on motor trucks were destroyed by the fire of the warships.

In outlining the budget before the Reichstag the Secretary of the Imperial German Treasury stated that the estimates called for \$3,125,000,000 four times greater than any ever presented, and that a further credit would be asked sufficient to finance the war until autumn.

KIDD'S STORE.

Tom Justice and wife, of Central Illinois, after twenty-five years, have been on a visit to kin and friends in Casey. They certainly found Suckerton the Promised Land, if judged by their vivacity and resemblance to the lilies of the valley.

Bowen Gover was here Wednesday deporing himself so mysteriously as to excite great curiosity and suspicion, and the chief of detectives promptly put a sleuth on his trail.

Jimmie Wright is surely a favorite of the gods as he was thrown by a young horse and dragged a hundred yards before a foot could be released from the stirrups. A few bruises are the only injury where death seemed inevitable.

Our sheriff, Dave Taylor, measures up to the duties and dangers of his office in a superior style. Delinquents who have succeeded in getting by the tax collectors of the past till the habit became chronic have been converted by Dave and every bluff of the Bitter Creek bad men promptly called. When Dave rode up to lead away a horse he had rid in for taxes was confronted by owner with loaded shotgun and advised to drop camp, instanter. Aerotically parleying and advancing, the gun was snatched and a persuader thrust into face of the disarmed, which won the game and poliest compliance with every kind suggestion. Monkeying and wheeling with the Sheriff are just now among the lost arts of Casey.

Adjudging the strength of the native inhabitants are beginning to feel in a marked measure due to the incoming of thousands of strangers, many of them foreigners, to work in the mines and mills of this section. The situation is a most unusual one and the prediction is made that within a few years, the native agricultural population of Letcher, Pike and Perry counties will be a thing of the past, and such agriculture as is followed in these counties so rich in mineral wealth, will be by people from other sections.

Some Kentucky Coal Figures

Kentucky's coal industry is greater than ever before, it is constantly growing. In recent years it has been greatly accelerated, especially in the Eastern coal fields. There several railroads have been run into the richest fields and large quantities of the "black diamonds" are being sent to the coast and other great markets. Not many know that some of the earliest coal mined in Kentucky came from the earth in the sections of the state around Owensboro. The Bon Harbor hills mines and those in Hancock county and in Union county were opened very early. The first recorded output in Kentucky coal was in 1827 and that antedated the first output of Ohio just ten years. It was not long after this until the first mine at Hawesville was being operated by Captain John Lander with negro slaves, and the coal was hauled to barges on the river in ox carts, and much the same industry was commenced by Captain Triplett with a tramway from Bon Harbor hills to the river. The industry began to grow rapidly as the steamboats men began to learn the superiority of coal over wood for the purpose of producing steam. As late, however, as 1840 the industry had reached an output of only 23,587 tons. On until the war there was gradual growth and then there was a serious drawback on account of the belligerency of the states, though the government gunboats took large quantities of the coal for their use. When the war opened in 1861 the output had reached 285,760 tons, but during the years of the war it fell off to 2,000 tons, and in 1870, five years after the close of the war, it was only 150,582 tons. Since then the growth of coal mining has been continuous until at present the output is something over 20,000,000 tons. —Ow

SAVES DAUGHTER

Advice of Mother no Doubt Prevents Daughter's Untimely End.

Ready, Ky.—"I was not able to do anything for nearly six months," writes Mrs. Laura Bratcher, of this place, "and was down in bed for three months."

I cannot tell you how I suffered with my head, and with nervousness and womanly troubles.

Our family doctor told my husband he could not do me any good, and he tried to give it up. We tried another doctor, but he did not help me.

At last, my mother advised me to take Cardui, the woman's tonic. I thought it was no use for I was nearly dead and nothing seemed to do me any good. But I took eleven bottles, and now I am able to do all of my work and my own washing.

I think Cardui is the best medicine in the world. My weight has increased, and I look the picture of health."

If you suffer from any of the ailments peculiar to women, get a bottle of Cardui today. Delay is dangerous. We know it will help you, for it has helped so many thousands of other weak women in the past 50 years.

"There are no liniments that equal Sloan's. My husband has neuralgia very often, he rates Sloan's on his face and that is the last of it." —Mrs. V. J. Brown, Route 1, Box 121, Halls, Tenn.

"We have raised a family of ten children and have used it for cramp and all lung trouble; also, as a specific for women of weak constitution, has a great value. It can't be beat. My wife sprained her ankle last summer and it was so bad she thought Sloan's Liniment applied enabled her to be as good as ever in a week. I have used it several times for sprains and rheumatism." —John Newcomb, R.R. No. 2, Keokuk, Iowa.

John D. Wakefield.

The Interior Journal, whose editors knew him well, would endorse most sincerely the following beautiful and well deserved tribute to the late John D. Wakefield, which appeared in the Louisville Times this week:

The flag over the City Hall floats at half-mast today, voicing the widespread sorrow occasioned by the untimely death of John D. Wakefield, chairman of the Board of Public Works. It is meet that this concrete token of grief should be displayed in memory of a public man, but those who knew him best know that symbols cannot express the profound bereavement that is the portion of his man devoted friends.

Mr. Wakefield had achieved more than ordinary, failing the lot of the young man. He had filled high public offices and at the time of his death occupied a prominent position in the business world. Coming to Louisville an obscure youth, he rose through industry and perseverance from a newspaper reporter to civic honors of which many a man might be proud. He was connected with the editorial departments of the Louisville Times and Courier-Journal for a number of years, and those who were associated with him recall his high ideals and the zeal with which he worked to attain them.

Nothing in his life was too small for infinite pains and nothing too great to be undertaken, with the feeling that conscientious effort would prevail in the end. Loyalty to his friends and a consecration to duty were two principles which he adopted for his guide in life, and he never swerved from either of them.

It is not in public life that Mr. Wakefield will be missed most poignantly. The deepest grief is that which is felt by the hundreds of women, get a bottle of Cardui today. Delay is dangerous. We know it will help you, for it has helped so many thousands of other weak women in the past 50 years.

The Farmers Bank, a new financial institution at London, states in its advertising space in the local papers that neither its officers nor directors can borrow from that bank. It is evident that the bank officials have more confidence in those people they are not so well acquainted with than those with whom they are daily thrown in contact. Thus it is—the more you know about man the more you are inclined to admire dogs.

COOPER ENDORSES

Y. M. C. A. WORK

Well-Known Man Becomes More Thoroughly Identified With Kentucky.

Lexington, Ky., March 12.—L. T. Cooper, the philanthropist who electrified Lexington by furnishing, at his own personal expense, the bread that is used in the Orphan's Homes in that city, who established a "Bread Line" for the indigent poor, and who is conducting an agricultural exposition to encourage the farmers, whom he considers the bone and sinew of the land, became more thoroughly identified with Lexington in particular and central Kentucky in general, when he became a member of the Young Men's Christian Association.

Mr. Cooper was waited upon by a delegation of some of Lexington's best-known young men and invited to join the local Y. M. C. A. Mr. Cooper, a native Kentuckian, not only accepted the invitation to become a member, but he endorsed the work of one of Lexington's most deserving and commendable institutions.

The demand for Tanlac, the remarkable medicine that is now being introduced by Sir. Cooper to prove his theories on health, is now the biggest thing of the kind ever seen in this section. The preparation is accomplishing a powerful amount of good among the thousands who suffer from catarrh, stomach, liver and kidney complaints as well as rheumatism.

Hundreds of those who have actually used Tanlac talk enthusiastically about the astonishing results they obtained from the medicine.

Peter Geiser, living at 412 Clifton avenue, Lexington, said:

"While I haven't used an entire bottle of Tanlac so far, yet I consider it the most wonderful medicine I have ever seen. I suffered for years with stomach and kidney trouble. I also had headaches, indigestion, and attacks of rheumatism.

"My troubles have all disappeared, and I can trace my remarkable improvement to no other cause than Tanlac. It is fine."

Tanlac can now be obtained in Stanford from Penny's drug store.

IMPORTANCE OF HEALTHY KIDNEYS

Stanford Readers Should Learn to Keep the Kidneys Well.

The kidneys have a big work to do. All the blood in the body is coursing through the kidneys constantly to be freed of poisonous matter. It is a heavy enough task when the kidneys are well, but a cold, chill, fever, or some thoughtless exposure is likely to irritate, inflame and congest the kidneys and interrupt the purifying work.

Then the aching frequently begins and is often accompanied by some irregularity of the urine—to frequent passages, sediment or retention. Thousands testify to the wonderful merit of Doan's Kidney Pills, a remedy for the kidneys only, that has been used in kidney troubles 50 years. You will make no mistake in following this Stanford citizen's advice.

"I was troubled some time ago by an acute attack of kidney complaint," says W. H. Mershon, of Lancaster pike, Stanford. "My back ached constantly and I had pains through my loins. I felt languid and tired easily. I took a box of Doan's Kidney Pills and they fixed me up all right, the second box practically curing me."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Mershon had. Foster-Milburn Co., Props., Buffalo, N. Y.

PROF. V. O. GILBERT WOULD HEAD SCHOOL SYSTEM

Announces His Candidacy for Democratic Nomination for SUPERINTENDENT OF PUBLIC INSTRUCTION

His Life Has Been Devoted to the Work

Professor V. O. Gilbert of Franklin, assistant state superintendent, has announced himself a candidate for the Democratic nomination for state superintendent of public instruction in the August primary election.

Born and reared on a farm, experienced in the hard school of poverty, he early chose teaching for a profession and for over thirty years has faithfully and continuously worked in the public school system. Teaching in country schools, serving as county superintendent, city superintendent, being for more than six years a member of the faculty of the Western Kentucky State Normal, and having been assistant state superintendent for nearly three years and a half, has given him special training for the office he seeks.

During all these years Professor Gilbert has made a thorough study of the conditions and needs of the public schools of Kentucky. His announcement follows:

"To the People of Kentucky:
"I am a candidate for the office of superintendent of the state, and to aid them in every possible way

career at the age of sixteen in a country school, I have served as best I could as teacher in the rural schools, as county superintendent of schools, as city superintendent of schools, as instructor in one of our state normal schools and as assistant for over three years to the state superintendent of public instruction during the present administration.

"During this long career as a school man, I have never wavered in my devotion to the schools of my native state. It has been and will continue to be my life's work.

"I am familiar with all the duties of the office to which I aspire, and I am familiar with the entire field from actual experience.

"If I am nominated and elected, I pledge myself unreservedly to the following policies:

"First—To administer the office of state superintendent as economically as it can be done, consistent with efficiency.

"Second—To co-operate with the county superintendents of the state, and to aid them in every possible way

in the great work of building up an efficient system of schools. My policy shall always be to help, not to hinder.

"Third—To make the department of education serve the classified cities in every possible way. To this end I shall seek for ways to serve the city boards of education and city superintendents.

"Fourth—To co-operate in every helpful way with the boards of which the state superintendent may be a member.

"Fifth—To the organization of courses of study, so as to adjust the educational machinery and work of the schools to the practical living needs of the community at large, and to hold constantly before the children examples of temperance, culture and good citizenship.

"Sixth—To co-operate especially with the illiteracy commission. The state superintendent is made by law a member of this commission, and I shall most heartily co-operate with the commission in its great work of eliminating adult illiteracy and illiteracy in general.

"My whole heart, my very life, is in the work; I have had the opportunity for all this training; I have done my best wherever I have worked; and I shall redeem to the letter in good faith every promise made or implied in this announcement. Upon this platform I am earnestly seeking the suffrage of the voters.

"Yours for service.

"V. O. GILBERT."

In the first place, I want the position and want it intensely, because it is a high honor, because it is a promotion, because it offers a field for faithful service, because I feel that I am competent to perform the duties of the office, and because I will do my very best to merit the confidence reposed in me.

"By these standards I am willing to be judged, recognizing that it is the right and the duty of the people to select the candidate best qualified by nature and training for the position.

"In the first place, I want the position and want it intensely, because it is a high honor, because it is a promotion, because it offers a field for faithful service, because I feel that I am competent to perform the duties of the office, and because I will do my very best to merit the confidence reposed in me.

"For more than twenty-two years I have given my life to school work in this my native state. Beginning my

this kind than there is about returning borrowed implements or articles of other kinds. It would be better not to say these things in the first place. The more "taking back" can not repair the damage, which may be likened to the aphorism about giving a dog a bad name. "Take It Back Day" ought to be worth something as a neighborhood harmonizer and as a medium for promoting the get-together spirit which is so important to the progress and the general welfare of a city, town or community.—Courier-Journal.

Candidate For Nomination as Auditor of Public Accounts Is Well Known Farmer and Live Stock Man.

H. H. COLYER, RICHMOND, KY.

AM A CANDIDATE for the responsible office of Auditor of Public Accounts of the State of Kentucky. Recognizing the important consideration given in choosing an official that will measure up to the ability and fitness for this high office, I submit the testimonials of those informed of my private life. To be Auditor of the great Commonwealth of Kentucky is not new ambition—its honors are supreme and worth fighting for. I am not entering this contest upon the advice of a few local friends. A careful scrutiny by my friends from every section of the state of all the usual political conditions have determined that my representation in this primary is not likely to be a final second. I am a farmer and live stock dealer—I am interested in systemizing of agricultural interests for greater results and less hardships.

My political aspirations have been focused on this office for quite a while. Believing now that the election experience of the Democratic voters of Kentucky in the past has put them "wise" to the dangers and un-democratic system of swapping state offices, inspires me with the belief that the time is ripe and the voters are ready to give to Kentucky's administration what they want in the form of a square deal. I believe in fighting for justice and meriting the honors given. I believe that officials should be required to do as the tolling farmer—earn the emoluments of his office by the sweat of his brow. I believe that when every official of Kentucky has labored hard for an economical administration that the taxpayers will be greatly relieved. I am not for creating more offices, but for dispensing with every one that is superfluous. I began voting temperance, and will continue to do so as long as I have the sovereign right. I am for the election of every Democrat that is worthy enough to win his nomination, and for the defeat of every Republican, whether he won or stole his nomination, as in either case he would be wrong and never right.

If I am elected—which I believe from the public expression I will be—I promise now that the Commonwealth of Kentucky will never have a cause for suspicion of irregular management in my office; and that every employee will be of the highest type of fitness for the duties assigned. I expect to conduct my campaign on purely honorable Democratic principles—I am as much opposed to violating our election laws as I am of every other law enacted by a righteous tribunal. I hope to have the pleasure of meeting with every Democrat in Kentucky between now and the 7th day of next August. When the final results will have been declared I will cherish the memory of my supporters and will fight for Democratic supremacy.

Testimonial From Madison County Democratic Committee.

"In behalf of the Democrats of Madison county, and through many other representative Democrats from other sections of the state, I take pleasure in presenting H. H. Colyer to the Democrats of Kentucky, as a man capable and worthy for the high office of Auditor of Public Accounts, which he is now seeking. He is now and has always been loyal and aggressive for the success of Democratic supremacy. His morals and integrity are above reproach. If nominated, we predict that he will lead our Democratic ticket in November. Respectfully,

"W. A. LANGFORD,
Chairman Democratic County Committee."
The "Kentucky Register" and "Climax-Madisonian" of Richmond, Ky., say, regarding Mr. Colyer:

"It is a pleasure to endorse a man of Mr. Colyer's worth for any office that he may seek. We have known him long and intimately, and can testify to the splendid quality of his Democracy, and to the value of his services to the party. Especially does it give us pleasure to say something of his value to the newspapers of this section. He has been one of the strongest friends the craft has ever had. He has been a consistent friend of the local publishers, has supported them morally and financially, and has always taken an active interest in the uplift and advancement of the journalistic profession."

Newspapers in Kentucky

According to the latest report there are 309 newspapers in Kentucky, including 29 dailies, two tri-weekly, 24 semi-weekly, 213 weekly, 7 semi-monthly, one bi-monthly, 2 quarterly and one three times a year. The places of publication number 159, of which 118 are county seats. There are seven county seats in Kentucky at which no paper is published.

Girls Do the Courting

Philippine natives believe in certain forms of women's rights, especially when it comes to choosing a husband. For instance, the Bontoc Igorots leave all the courting to the girls. While the worldly goods of the proposed father-in-law have some bearing upon the ardor of the young lady's wooing, still there are certain requirements which must be lived up to by the young men—namely, he must either have secured the head of an enemy or he must be in the employ of an American. In other words, he must be a brave man—according to Igorote standards—or he must be in a fair way to attain a good living.

Road Chat

(By Jacob Gander)

People are talking on many things these days out of their own will. Let me deliver a short address in case of need on a subject which is a very dirty one especially at this time of the year.

Who of the kind and gentle readers of this paper have ever heard of a road in Lincoln county by the name of Newland's Lane? This word includes all the misery that can be shown by a road and expressed in a name. All those who live on this road know it and had an opportunity to find out. We might ask the disciples (John 9:2). Who did sin, them or their parents? That they are in the mud. They are in it and some times deep.

You might say: "Why don't the people, living on that road work it and put it in better condition?" It has been done very carefully every year. The writer of this was helping and did his part with the others for the last 13 years. Many hundred loads of slate, the only material which was at our disposal, have been put on the road with no result as the one showing that Newland's Lane cannot be worked and put in good condition by the old-fashioned way of dirt-road working.

Every citizen and taxpayer has a right to a road. Where is our road and where is our part?

I expected four loads of lumber last spring; two loads were delivered. The first team was able to pass the most dangerous spot, the second one stuck fast in the mud and the horses of both teams were unable to move the load. The lumber had to be unloaded, passed over the fence and carried quite a distance to be reloaded on the wagon, the road being impassable for pedestrians. It is needless to say, that I am still waiting for the other two loads.

It is the opinion of the writer and all those living on this road and suffering under the deplorable conditions that relief can come only from the county building a pike about two miles long with the assistance of all concerned.

Back of these two miles are two colored settlements, Boneyville and Davisville, with more than 100 inhabitants, hardworking and taxpaying people. Many of them work in town and have to pass the road every day. It is our race which imported them and it is our duty to help them.

Further back are good farms, whose owners depend on this road for going to town, the branches leading to Hustonville pike and Beck's Lane, being impassable after heavy rains. There is also a German congregation on this road with a church and parsonage and a Baptist congregation with a new church which has members in town and it is very often quite impossible for the people to get through the mud and attend services. Rural Route No. 3 also runs through this road which is the worst one and a disgrace to our prosperous county, especially in that part called Newland's Lane.

There are two reasons why the attention of the proper authorities should be called to this road first of all: First—it cannot be worked by the old way on account of the nature of the ground, (clay with an underground which lets no water through.) Second—there is no other road going out into the pike which leads to town in nearly so bad a condition as this awful mud road, called in its worst section Newland's Lane.

**GIRLS! STOP WASHING
THE HAIR WITH SOAP**
Soap Dries Your Scalp, Causing Dandruff, Then Hair Falls Out—Try This Next Time.

After washing your hair with soap always apply a little Danderine to the scalp to invigorate the hair and prevent dryness. Better still, use soap as sparingly as possible, and instead have a "Danderine Hair Cleanse." Just moisten a cloth with Danderine and draw it carefully through your hair, taking one strand at a time. This will remove dust, dirt and excessive oil. In a few minutes you will be amazed, your hair will not only be clean, but it will be wavy, fluffy and abundant, and possess an incomparable softness and lustre.

Besides cleansing and beautifying the hair, one application of Danderine dissolves every particle of dandruff; stimulates the scalp, stopping itching and falling hair. Danderine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. Its exhilarating and life-producing properties cause the hair to grow long, strong and beautiful.

Men! Ladies! You can surely have lots of charming hair. Get a 25 cent bottle of Knowlton's Danderine from any drug store or toilet counter and try it.

When Knighthood Was in Flower As Pat O'Hoolihan was walking down Broadway he was accosted by a distinguished looking stranger who wished to know the quickest way to the City Hall. Pat told him, and then inquired cheerfully, "And who might ye be?"

"I," said the stranger, drawing himself up proudly, "am the Hon. John Kenneth Edgerton, of London Knight of the Garter, Knight of the Bath, Knight of Malta, Knight of the Golden Fleece, Knight of St. John, Knight of the Royal Legion and of the Iron Cross. And whom have I the honor of addressing?"

COLDS

An up-to-date remedy for colds. That is what Peruna is. In successful use over 50 years.

Colds are caught in many ways: Illly ventilated rooms; rooms that have direct draughts; crowded rooms; damp houses; stuffy school rooms; offices ill heated.

A dose of Peruna at the right time, at the first symptom of cold, before the bones begin to ache, before the sore throat manifests itself, or the cough, or the discharge from the nose, just a dose or two of Peruna before these symptoms begin is generally sufficient. But after the cold is once established with the above symptoms prominent, a bottle of Peruna, or maybe two, will be necessary.

For several years I have been troubled with colds at each change of season. I took Peruna and have not been troubled with the slightest cold this entire season." Mr. Harry Fisher, 1228 Mosher St., Baltimore, Md.

"Give the children Peruna if they have a cold, and it always relieves them quickly." Dr. H. H. Drury Hill Ave., Baltimore, Md.

"When I feel a cold coming on I take a little Peruna, and it does me good." Mr. Charles S. Many, 12 Water St., Ossining, N. Y.

"No family should ever be without Peruna, for it is an unfailing cure for colds." Dr. M. F. Jones, Burning Springs, Ky.

A Modern Solomon

A Georgia magistrate was perplexed by the conflicting claims of two negro women for a baby, each contending that she was the mother of it. The judge remembered Solomon, and, drawing a bowie knife from his boot declared that he would give half to each. The women were shocked, but had no doubt of the authority and purpose of the judge to make the proposed compromise. "Don't do that, boss," they both screamed, in unison, "you keep it yourself!"

D. D. D. In Hospitals; Standard Skin Cure

How many hospital patients, suffering the frightful itch, the raw, scorching pain of skin disease, have been soothed to sleep by a soothing fluid which is the secret of their hands?

That fluid is the famous D. D. D. prescription for eczema.

THE SUPERVISING NURSE of one of our prominent Catholic institutions (name of nurse and institute on application), writes regarding her patient. "The disease had eaten her eyebrows away. Her nose and lips had become disfigured. Since the use of D. D. D. her eyebrows are growing, her nose and face have assumed their natural expression."

How many eczema sufferers are paying their doctors for regular treatment and are being treated with this same soothing, healing fluid?

Heavy Loss in Baseball

The five important baseball leagues—the National, American, American Association, International and Federal League—stood a loss last season of \$1,125,000, according to figures published in New York. They are not complete in detail as to the minor leagues, but the entire American League made a net profit of but \$58,000. The National League, on account of the spurt of the Braves, did a little better, and managed to make \$115,000. It is interesting to note in this connection that the Giants made \$120,000, which is \$5,000 more than the league made collectively. The others must have lost heavily for the losses to have pulled the profits of the league below the net gain of the Giants. The principal winners of baseball are: Giants, \$120,000; Red Sox, \$75,000; White Sox, \$76,000; Braves, \$70,000; Chifeds, \$20,000; Yanks, \$10,000. All the others appear to have either lost money or broken even. The heaviest losers and the only ones on whom the figures have been made public are Cleveland, \$8,000; Athletics, \$40,000; Pittsburgh, \$30,000.

LAXATIVE FOR OLD PEOPLE—CASCARETS

Salts, Calomel and Pills Act on Liver and Bowels Like Pepper Acts

In Nostrils—Danger!

Get a 10-cent box now.

Most old people must give to the bowels some regular help, else they suffer from constipation. The condition is perfectly natural. It is just as natural as it is for old people to walk slowly. For age is never so active as youth. The muscles are less elastic. And the bowels are muscles. So all old people need Cascarets. One might as well refuse to aid weak eyes with glasses as to neglect this gentle aid to weak bowels. The bowels must be kept active. This is important at all ages, but never so much as at fifty.

Age is not a time for harsh physics. Youth may occasionally whip the bowels into activity. But a lash can't be used every day. What the bowels of the old need is a gentle and natural tonic. One that can be constantly used without harm. The only such tonic is Cascarets, and they cost only 10 cents per box at any drug store. They work while you sleep.

A simple prescription made up of a combination of pure vegetable oils is producing wonderful results for sufferers from stomach, liver and intestinal troubles. The remedy, which is said to have originated in France, where it has been used for years by the peasantry, was introduced into this country by George H. Mayr, a leading Chicago druggist, who cured himself of severe stomach, liver and intestinal troubles by its use. Those who have used it say the first dose is sufficient to convince any one of its remarkable merit, and that within twenty-four hours, the sufferer feels like a new person. This medicine, which has become known as Mayr's Wonder Remedy, is sold by leading druggists everywhere with the positive understanding that your money will be refunded without question or quibble if ONE bottle fails to give you absolute satisfaction.
